Table 1: PIP Registrations, by month of registration

Notes:

1. Figures have been rounded to the nearest 100. Components may not sum to totals due to rounding.

 The status of claims as 'normal rules' or 'SRTI' is shown as at the point of registration.
 Definition of Registration: The claimant has completed the initial PIP claim process, either by phone or, in exceptional circumstances, via a paper form.

4. Some claims may not be marked SRTI at the point of registration but become a SRTI claim at the point of clearance,

and vice versa. This could lead to figures showing more SRTI clearances than registrations.

5. '-' Less than 50 claims in this category.

- Notes:
 Figures at Constituency level have been rounded to the nearest 10, totals to the nearest 100. Components may not sum to totals due to rounding and disclosure controls which have been applied.
 Definition of Registration: The claimant has completed the initial PIP claim process, either by phone or, in exceptional circumstances, via a paper form.
 The status of claims as 'normal rules' or 'SRTI' is shown as at the point of registration.
 Some claims may not be marked SRTI at the point of registration but become a SRTI claim at the point of decision, and vice versa. This could lead to figures showing more SRTI clearances than registrations.
 '' Less than 5 claims in this category.
 Reassessment is not yet available in all areas.

Table 4Aii: PIP Registrations, by Local Authority and Government Office Region, up to 30th April 2015

Notes:

1. Figures at Local Authority/Region level have been rounded to the nearest 10, totals to the nearest 100. Components may not sum to totals

due to rounding and disclosure controls which have been applied. 2. Definition of Registration: The claimant has completed the initial PIP claim process, either by phone or, in exceptional circumstances, via a

Definition of Registration: The claimant has completed the initial PIP claim process, either by phone or, in exceptional crcumstances, via a paper form.
 The status of claims as 'normal rules' or 'SRTI' is shown as at the point of registration.
 Some claims may not be marked SRTI at the point of registration but become a SRTI claim at the point of clearance, and vice versa. This could lead to figures showing more SRTI clearances than registrations.
 '-' Less than 5 claims in this category.
 Reassessment is not yet available in all areas.

Table 4Bi: PIP Clearances by Parliamentary Constituency, up to 30th April 2015

- Notes:
 1. Figures at Constituency level have been rounded to the nearest 10, totals to the nearest 100. Components may not sum to totals due to rounding and disclosure controls which have been applied.
 2. The status of claims as 'normal rules' or 'SRTI' is shown as at the point of clearance.
 3. Total clearances include Decisions (comprising Awards and Disallowances) and Withdrawals and reflect outcomes prior to a ny reconsideration and appeal action.
 4. Definition of Award: The Department has made the decision to award PIP.
 5. Definition of Withdrawal: The Department has made the decision not to award PIP.
 6. Definition of Withdrawal: The Department has withdrawn the claim prior to a decision being made.
 7. Some claims may not be marked SRTI at the point of registrations but become a SRTI claim at the point of clearance, and vice versa. This could lead to figures showing more SRTI clearances than registrations.
 8. '' Less than 5 claims in this category.
 9. Reassessment is not yet available in all areas.

Table 4Bii: PIP Clearances by Local Authority and Government Office Region, up to 30th April 2015

 Notes:
 Figures at Local Authority/Region level have been rounded to the nearest 10, totals to the nearest 100. Components may not sum to totals due to rounding and disclosure controls which have been applied.
 The status of claims as 'normal rules' or 'SRTI' is shown as at the point of clearance.
 Total clearances include Decisions (comprising Awards and Disallowances) and Withdrawals and reflect outcomes prior to any reconsideration and appeal activity. Total clearances modes bescare events and the decision to award PIP.
 Definition of Award: The Department has made the decision not to award PIP.
 Definition of Disallowance: The Department has made the decision not to award PIP.
 Definition of Withdrawal: The claimant has withdrawn the claim prior to a decision being made.
 Some claims may not be marked SRTI at the point of registration but become a SRTI claim at the point of clearance, and vice versa. This could be the first fir

lead to figures showing more SRTI clearances than registrations.8. '-' Less than 5 claims in this category.9. Reassessment is not yet available in all areas.

Table 4Ci: PIP Award Rates, by Parliamentary Constituency, up to 30th April 2015

Notes:
1. The status of claims as 'normal rules' or 'SRTI' is shown as at the point of clearance.
2. Clearances include Decisions (comprising Awards and Disallowances) and Withdrawals and reflect outcomes prior to any reconsideration and appeal action.
3. Definition of Award: The Department has made the decision to award PIP.
4. Definition of Disallowance: The Department has made the decision not to award PIP.
5. Definition of Withdrawal: The claimant has withdrawn the claim prior to a decision being made.
6. '-' No claims made in this category.
7. '#' Less than 10 claims made in this category.
8. Due to the low number of cases, figures for Reassessment Award Rates are not shown.

Table 4Cii: PIP Award Rates, by Local Authority and Government Office Region, up to 30th April 2015

Notes:

The status of claims as 'normal rules' or 'SRTI' is shown as at the point of clearance.
 Clearances include Decisions (comprising Awards and Disallowances) and Withdrawals and reflect outcomes prior to any reconsideration and appeal action.

action.
Definition of Award: The Department has made the decision to award PIP.
Definition of Disallowance: The Department has made the decision not to award PIP.
Definition of Withdrawal: The claimant has withdrawn the claim prior to a decision being made.
'~ No claims made in this category.
'# Less than 10 claims made in this category.

8. Due to the low number of cases, figures for Reassessment Award Rates are not shown.

Notes

1. Figures have been rounded to the nearest whole number of weeks. 2. The status of claims as 'normal rules' and 'new claim/reassessment' is shown as at the point of issue of the Part2/referra I to the AP/return from the AP/DWP decision, in accordance with the measure. It is possible for claims to transition between normal/special rules and new claims /reassessments during the course of the claimant journey.

3. Figures represent the average clearance time of claims cleared within that calendar month. 4. The median time represents the middle value if you are to order all the times within our distribution from lowest value to highest value. The median is being presented instead of the mean, as the mean measure is affected by outlying cases (e.g. cases were the person has been hard to reach due to being in prison, beneficient field to stread the automation are presented instead of the mean, as the mean measure is affected by outlying cases (e.g. cases were the person has been hard to reach due to being in prison, beneficient field to stread the automation are presented instead of the mean, as the mean measure is affected by outlying cases (e.g. cases were the person has been hard to reach due to being in prison, beneficient field as the due automation are prison and the mean measure is affected by outlying cases (e.g. cases) are to person has been hard to reach due to being in prison, beneficient field as the due automation are prison and the measure is affected by outlying cases (e.g. cases) are the person has been hard to reach due to being in prison, beneficient field as the due and the person person are prisoned as the person has been hard to reach due to being in prison.

presented instead of the mean, as the mean measure is affected by outlying cases (e.g. cases were the person has been hard to reach due to being in prison, hospital, failed to attend on numerous occasions etc...). 5. The Registration to issue of Part 2' clearance time is measured as the average time between the date of registration of the claim (i.e. the date of the PIP 1 registration phone call) and the date the Part 2 form is sent to the claimant. It does not include claims that have been with drawn by the claimant during this phase or claims that have been disallowed prior to issue of Part 2' clearance time is measured as the average time between the date the Part 2 form is sent to the claimant and the date of form reserved back by the Department. It does not include claims that have been with drawn by the claimant during this phase or claims that have been disallowed prior to issue of the Part 2 form due to the withdrawn by the claimant during this phase or claims that have been withdrawn by the claimant during this phase or claims that have been withdrawn by the claimant during this phase or claims that have been the date of referral to AP to return from APC clearance time is measured as the average time between the date of referral to the assessment providers and the date of return of the assessment provider's recommendation to DWP. This is a proxy for the length of time the claimant thaw taked for an assessment, because data on the dates that assessment to DWP without a report and disallowed due to failure to attend without good reason.

attend without good reason. 8. The Return from AP to DWP decision' clearance time is measured as the average time between the date of return of the asse ssment provider's recommendation to DWP and the date of the DWP decision to either award/disallow the claim is made. It does not include claims that have been withdrawn by the claimant during this phase or claims that have been returned to DWP without a report and disallowed due to failure to att end without good reason. The claimant during time private or claims that have been feturined to DWP without a report and claainoved due to failure to att end without good reason. 9. The 'Registration to DWP decision (ned to end)' clearance time is measured as the average time between the date of registra tion of the claim and the date of the DWP decision to either award/disallow the claim is made. It does not include claims that have been withdrawn by the claim ant or claims that have been disallowed by DWP pre-referral to the assessment providers (e.g. for failure of basic eligibility criteria and non -return of the Part 2 form within the time limit). 10. The 'Referral to AP to DWP decision (end to end)' clearance time is measured as the average time between the date of referral to the assessment providers and the date of the DWP decision to either award/disallow the claim. It does not include claims that have been withdrawn by the claimant or claims that have been disallowed by DWP pre-referral to the assessment providers (e.g. for failure of basic eligibility criteria and non -return of the Part 2 form within the time limit).

been disallowed by DWP pre-referral to the assessment providers (e.g. for failure of basic eligibility criteria and non -return of the Part 2 form within the time limit). 11. Note, the individual parts of the claimant journey average times will not sum to the end to end claimant journey average times. This is because each measure is based on the median clearance time of cases cleared at that stage, whils the end to end measure is based on the median clearance time for all cleared cases. As the size and distributions of clearance times for the individual stages will vary, the sum of the individual medians will not total the end to end median. 12. Great Britain only.

Notes:

Figures have been rounded to the nearest working day, i.e. Monday to Friday (including bank holidays).
 The status of claims as 'special rules' and 'new claim/reassessment' is shown as at the point of referral to the AP/return from the AP/DWP decision, in accordance with the measure. It is possible for claims to transition between

AP/return from the AP/DWP decision, in accordance with the measure, it is possible for claims to transition between normal/special rules and new claims/reassessments during the course of the claimant journey. 3. Figures represent the average clearance time of claims cleared within that calendar month. 4. The median time represents the middle value if you are to order all the times within our distribution from lowest value to highest value. The median is being presented instead of the mean, as the mean measure is affected by outlying cases (e.g. cases were the person has been hard to reach due to being in prison, hospital, failed to attend on numerous complete to the second sec occasions etc ...).

5. The 'Registration to referral to the AP' clearance time is measured as the average time between the date of registration of the claim and the date of the referral to the assessment provider. It does not include claims that have been withdrawn by the claimant or claims that have been disallowed by DWP pre-referral to the assessment providers (e.g. for failure of basic eligibility criteria).

Geg. for failure of basic eligibility crians to claims that have been usantowed by DWP preventian to the assessment provider's (e.g. for failure of basic eligibility criteria).
6. The 'Referral to AP to return from AP' clearance time is measured as the average time between the date of referral to the assessment provider's recommendation to DWP. It does not include claims that have been withdrawn by the claimant during this phase.
8. The 'Refurn from AP to DWP decision' clearance time is measured as the average time between the date of return of the assessment provider's recommendation to DWP and the date of the DWP decision to either award/disallow the claims that have been withdrawn by the claimant during this phase.
9. The 'Registration to DWP decision (end to end)' clearance time is measured as the average time between the date of registration of the claim of the date of the DWP decision to either award/disallow the claim is made. It does not include claims that have been withdrawn by the claimant during this phase.
9. The 'Registration to DWP decision (end to end)' clearance time is measured as the average time between the date of registration of the claim of the date of transition if the claim moves from being a normal rules claim to special rules claim to year the date of the DWP decision to either award/disallow the claims is made. It does not include claims that have been withdrawn by the claimant to claims that have been disallowed by DWP pre-referral to the assessment providers (e.g. for failure of basic eligibility criteria).
10. Note, the individual parts of the claimant journey average times will not sum to the end to end claimant journey average times. This is because each measure is based on the median clearance time of cases cleared at that stage, whilst the end to end measure is based on the median clearance time of the individual medians will not total the end to end median.
11. Great Britain only.

Table 6: PIP Average Actual Outstanding Times (Median number of weeks) - Normal Rules

Source: PIP Computer System claimant records

Figures have been rounded to the nearest whole number of weeks.
 Figures have been rounded to the nearest whole number of weeks.
 The status of claims as 'normal rules' and 'new claim/reassessment' is the most recent know status for each claim. It is possible for claims to transition between normal/special rules and new claims/reassessments during the course of the claimant journey.

3. Figures represent the average outstanding time of claims outstanding within that calendar month, i.e. we check the number of claimants that were outstanding on the last day of each month and measure how long they have been outstanding for.

4. The median time represents the middle value if you are to order all the times within our distribution from lowest value to highest value. The median is being presented instead of the mean, as the mean measure is affected by outlying cases (e.g. cases were the person has been hard

median is being presented instead of the mean, as the mean measure is affected by outlying cases (e.g. cases were the person has been han to reach due to being in prison, hospital, failed to attend on numerous occasions etc...).
5. The 'Registration to issue of Part 2' outstanding time is measured as the average time between the date of registration of the claim (i.e. the date of the PIP 1 registration phone call) and the date at the end of the reported month, for all claims awaiting a Part 2 issue.
6. The 'Issue of Part 2 to return of Part 2' outstanding time is measured as the average time between the date the Part 2 form is sent to the claimant and the date at the end of the reported month, for all claims awaiting a Part 2 form is sent to the claimant and the date at the end of the reported month, for all claims awaiting a Part 2 return.
7. The 'Referral to AP to return from AP' outstanding time is measured as the average time between the date of referral to the assessment providers and the date at the end of the reported month, for all claims awaiting a return from the AP.
a. The 'Refurn from AB to DW/R decision' quictancing time is measured as the outgrape time between the date of return of the assessment providers and the date at the end of the reported month, for all claims avaiting a return from the AP.

8. The 'Return from AP to DWP decision' outstanding time is measured as the average time between the date of return of the assessment provider's recommendation to DWP and the date at the end of the reported month, for all claims awaiting a DWP decision to be made. 9. The 'Registration to DWP decision (end to end)' outstanding time is measured as the average time between the date of registration of the claim and the date at the end of the reported month, for all outstanding claims.

10. The 'Referral to AP to DWP decision (end to end)' outstanding time is measured as the average time between the date of referral to the assessment providers and the date at the end of the reported month, for all outstanding claims that have been referred to the AP.

11. Note, the individual parts of the claimant journey average times will not sum to the end to end claimant journey average times. This is because each measure is based on the median outstanding time of cases outstanding at that stage, whilst the end to end measure is based on the median outstanding time for all outstanding cases. As the size and distributions of outstanding times for the individual stages will vary, the sum of the individual medians will not total the end to end median. Furthermore for this reason, we can also see an individual part of the claimant journey (e.g. assessment provider stage) having a longer average time than the end to end average time. 12. Great Britain only.

Table 7A: PIP Mandatory Reconsideration Registrations, by month of registration - Normal Rules

Notes:

Figures have been rounded to the nearest 100. Components may not sum to totals due to rounding.
 Definition of Mandatory Reconsideration: Claimants who wish to dispute a decision made on their PIP claim are required to ask the Department to reconsider the decision, before they can lodge an appeal with Her Majesty's Courts and Tribunals Service. MRs can arise for various reasons such as omitting to tell DWP about relevant evidence during the initial decision-making process; this could include not returning forms required as part of the claim.

3. The status of claims as 'normal rules' or 'SRTI' is shown as at the point of registration.

4. Each PIP claim can have more than one reconsideration registered against it. The above counts represent all registered reconsiderations.

5. Definition of Registration: The claimant is not happy with the decision they have received regarding their PIP claim and asks for it to be reconsidered by the Department.

6. From Apr 2013 to Apr 2015, the total number of mandatory reconsideration registrations from SRTI claims was 300.

7. '-' Less than 50 claims in this category.

Notes

Notes:
 Figures have been rounded to the nearest 100. Components may not sum to totals due to rounding.
 Definition of Mandatory Reconsideration: Claimants who wish to dispute a decision made on their PIP claim are required to ask the Department to reconsider the decision, before they can lodge an appeal with Her Majesty's Courts and Tribunals Service. MRs can arise for various reasons such as omitting to tell DWP about relevant evidence during the initial decision-making process; this could include not returning forms required as part of the claim.
 The status of claims as 'normal rules' or 'SRTI' is shown as at the point of clearance.
 Each PIP claim can have more than one reconsideration cleared against it. The above counts represent all cleared reconsiderations.

reconsiderations.

reconsiderations.
5. Definition of 'New decision - Award changed': As a result of the reconsideration, a new decision has been issued and the award has been changed. This may include claims that were previously disallowed that are now awarded, or claims that had previously been awarded but the reconsideration has resulted in a change in the claim (e.g. revision to an assessment score) and this has affected level of the award.
6. Definition of 'New decision - Award unchanged': As a result of the reconsideration, a new decision has been issued but the award remains unchanged. This may include claims where the reconsideration has resulted in a change in the claim (e.g. revision to an assessment score) but this change has not affected the level of the award.
7. Definition of 'Decision not revised': As a result of the reconsideration, the initial decision has not been revised.
8. Withdrawn/cancelled' includes all reconsiderations that have been withdrawn/cancelled prior to a reconsideration decision has not affected.

Withdrawhrcancelled indudes all reconsiderations that have been withdrawhrcancelled prior to a reconsideration decision being made.
 Total reconsideration clearances include new decisions made regarding the initial PIP claim (either award changed or unchanged), decisions not revised and withdrawals or cancellations.
 From Apr 2013 to Apr 2015, the total number of mandatory reconsideration clearances from SRTI claims was 300.
 '-' Less than 50 claims in this category.
