Dear Angela,

PARLIAMENTARY QUESTION NUMBER 198852:

To ask the Secretary of State for Education, what estimate his department has made of the number of children attending early years settings that are rated (a) inadequate and (b) requires improvement.

Your Parliamentary Question was passed to me, as Her Majesty’s Chief Inspector, for response.

The table below gives a breakdown of the number of registered places at early years providers with all inspection outcomes. I have used the number of registered places as a proxy for the number of children. For a very small number of providers where registered places are not recorded (around 800, or 1% of the total number of registered providers), I have used the average number of places that are registered for the type of provider to estimate the number of places.
Table 1: Estimated total number of registered places at early years providers with all inspection outcomes, on 31 August 2018
