# Civil Service People Survey

Civil Service benchmark scores:

2009-2018

November 2018

Civil Service

*10 years of the  
People Survey*

*A Brilliant  
Civil Service*

# CSPS 2018: Summary of findings

The 2018 Civil Service People Survey is the **tenth annual** cross-Civil Service survey of our employees' attitudes and experiences of working in the Civil Service, with **102** Government Departments and Agencies participating this year.

**302,170** civil servants completed the 2018 survey, which is the highest number of responses we've achieved since 2010. This equates to an overall response rate for the Civil Service of **66.4%**, our second highest in ten years of running the survey, and just 0.3pp behind that achieved in 2017.

The Employee Engagement Index is **62%**, up one percentage point (pp) from last year, and the highest it has ever been.

Five of the nine engagement driver themes have increased since 2017, whilst the other four have remained stable. All but one of the theme scores ('Pay and benefits') are at or equal to their highest level since the survey began in 2009.

# CSPS 2018: Civil Service benchmark results

This report shows the benchmark scores from the Civil Service People Survey (CSPS) from 2009 to 2018. The benchmark for a survey measure is the median (mid-point) score of all participating organisations.

The individual survey questions are used to generate 10 headline indicators, one to measure the levels of employee engagement and nine to measure factors that influence engagement.

The table below shows the benchmark scores for each of these 10 headline indicators.

**Pages 4-11** show the **benchmark score for each of the individual core questions**.

**Page 12** provides a brief **technical overview** of the survey and endnotes, including information on the response rate.

**Page 13** lists the **organisations** that participated in the 2018 survey.

# Technical notes

The 2018 Civil Service People Survey was conducted across 102 Civil Service organisations. A list of participating organisations is provided on page 13. The fieldwork for the survey ran from 1 to 31 October 2018, with 98% participating online and 2% completing paper questionnaires.

302,170 people participated in the survey, an overall response rate of 66%. Across the 102 participating organisations the median response rate was 78%.

## End notes

1. Except for the engagement index (see note 3) the result for each of the headline themes is calculated as the percentage of “strongly agree” or “agree” responses to all questions in that theme.
2. The change in the benchmark score is calculated simply as the later year’s benchmark score minus the preceding year’s benchmark score. This calculation is based on the rounded figures published in this report.
3. The employee engagement index is calculated as a weighted average of the responses to the five employee engagement questions (B47-B51) and ranges from 0% to 100%. A score of 0% represents all respondents giving a rating of “strongly disagree” to all five questions. A score of 100% represents all respondents giving a rating of “strongly agree” to all five questions.
4. The scores for questions B01-B62 are based on the proportion responding “strongly agree” or “agree”. For questions D01-D03, E01 and E03 the score is based on the proportion responding “yes”.
5. Phrases in square brackets (e.g. [my organisation]) are used in the core questionnaire to indicate where participating organisations use the relevant local terms (e.g. 'the Cabinet Office' in place of [my/your organisation] or 'Senior Civil Servants' in place of [senior managers]).
6. Question B53 was added to the core questionnaire in 2011 and therefore no benchmark score for 2009 or 2010 is available.
7. In 2012 five new questions on organisational culture were added to the core questionnaire to help measure further aspects of the culture of our organisations. One of the questions was removed in 2016 as stakeholder feedback suggested that it offered little insight and removing it would reduce questionnaire length while having minimal impact on the time series.
8. In CSPS 2017 six questions were removed from the core questionnaire (B06, B30, B40, B56, B60, B61 in the 2016 survey), after consultation with participating organisations. Three new questions about organisational culture (B56-B58) and two questions about the Civil Service Vision (B61, B62) were added.
9. In 2015 eight questions related to the Leadership Statement were added to measure perceptions of the behavioural expectations and values to be demonstrated by all Civil Service leaders. This section was reduced to two questions in 2016 as analysis of the 2015 results revealed that respondents tend to answer all questions about their manager in the same way and all questions about senior managers in the same way, meaning we could reduce the length of the section, without losing insight.
10. Question C01 has four response options and respondents can only select one of the four options. The benchmark score is the median proportion of responses to each option.
11. Following a pilot in 2011, from 2012 the Civil Service People Survey questionnaire included the four subjective wellbeing questions asked by the ONS in the Annual Population Survey as part of their Measuring National Wellbeing programme.
12. For 2018, there was a change to the way percentages were presented for W04. The percentage of participants who responded 6-10 is now reported, and this has been recalculated for prior years to allow for time series comparisons.
13. Question E02 was only asked to those who had responded "yes" to question E01. The score for question E02 is the number of responses to that category as a percentage of those who had said 'yes' to the previous question. As respondents were able to select more than one category the scores may sum to more than 100% and the proportions for individual categories cannot be combined.
14. In CSPS 2010 an additional seven response options were added to question E02, therefore there is no data for these categories for 2009. The addition of these categories also means that the results for "Any other grounds" cannot be compared between 2009 and 2010. In CSPS 2018 two additional options were added to E02, “marital status” and “pregnancy, maternity and paternity”, increasing the number of options from 15 to 17. There is therefore no data on these options before 2018.
15. Questions E04, E05 and E06 were only asked to those who had responded "yes" to question E03. The score for question E04 is the number of responses to that category as a percentage of those who had said "yes" to E03. As respondents were able to select more than one category the scores may sum to more than 100% and the proportions for individual categories cannot be combined.
16. Questions E05 and E06 were added to the questionnaire in 2016. These were added to help understand whether issues had been reported and/or resolved.

Department for Work and Pensions  
Health and Safety Executive

## Notes

1. The following sets of organisations participate in a 'joint-survey', that is where all the organisations take part in the same version of the Civil Service People Survey and therefore are treated as one organisation for analysis and reporting of the survey results.

- The Department for Education and its executive agencies
- The Scotland Office and Office of the Advocate General, the Wales Office, and the Northern Ireland Office

2. The operational directorates of these organisations undertake their own versions of the Civil Service People Survey and therefore are treated as separate organisations for analysis and reporting of the survey results. However, combined scores for the 'Home Office Group', 'Ministry of Justice (including agencies)' and 'UK Statistics Authority (including ONS)', which contain all directorates are also presented.
