

Local Full Fibre Networks Programme, Gigabit Broadband Voucher Scheme - Update 2

The aim of the Scheme is to increase the speed of deployment of full fibre networks within the UK by providing micro-grants to support the cost of new connectivity to gigabit capable broadband services to businesses and communities. The voucher is a grant to available to all small and medium enterprises (SMEs) and in some circumstances residents.

SME vouchers have a value between **£500 and £2,500** where vouchers are available to domestic users these have a value of **£500**.

Following a successful market test in late 2017, the Scheme began to operate across the whole of the UK from March 18. Funding of £67m is currently allocated to the Scheme.

On a quarterly basis, DCMS will make information available about the number of new connections the Scheme has supported on a constituency, national, regional and local authority basis. The following information provides these data from the start of the Scheme until December 2018.
