This paper provides Programme Board with an update on the contingency staffing position.

Background

DWP Executive Team agreed to draw forward recruitment/ redeployment, thus increasing the capacity of Universal Credit Full Service as mitigation to moving to scale.

Agreed funding for contingency is as follows:

£m	2017/18	2019/20	Total
	£45.9	£7.3	£53.3

To support moving to scale in October we have drawn forward planned recruitment in Service Centres by 6 months and in Jobcentres by 3 months.

Progress

We have developed a plan agreed through governance to both recruit new staff and redeploy existing staff from other service lines to Universal Credit.

We have been increasing capacity in Full Service since May 2016 and the supply forecast for service centres exceeds core demand (see Annex A). A relatively small gap against the contingency profile has emerged for a few weeks because there was a decision to redirect some staff planned for Full Service to Live Service. However a plan is now in place to mitigate these impacts from August.

Performance continues to improve and we remain confident further expansion in July can be safely delivered.

Staff in post for October 2017 and subsequent months will have undergone training and be ready to deliver Universal Credit Full Service, albeit on a journey through to full productivity.

Challenges

The plan is not without challenge with fluctuations in attrition, shortfalls in recruitment and the delivery of training. To mitigate this we are running additional recruitment campaigns, fast-track recruitment trials and directly recruiting Training Officers.

Plans are closely monitored and reviewed on a fortnightly basis

Programme Board are asked to note the latest resourcing position.

UC Service Centre Supply & Demand (17/18)

- A breakdown of the work coach supply forecasts to compare with the breakdown of demand for each component part is being worked through.
- The resource plan is in the process of being refined. This involves working through progression assumptions and redeployment opportunities across Directorates.
