Dear Deposited Papers Clerk,

Gigabit Broadband Voucher Scheme Data, Quarter 1 (2019 - 2020)

The Gigabit Broadband Voucher Scheme is part of the Local Full Fibre Networks Programme. The Scheme aims to increase the speed of deployment of full fibre networks within the UK by providing micro-grants to support the cost of new connectivity to gigabit capable broadband services to businesses and communities. On a quarterly basis, DCMS will make information available about the number of new connections the Scheme has supported on a constituency, national, regional and local authority basis. The attached document provides this data from the start of the Scheme until June 2018.

I am placing a copy of this report in the Library of the House.

Matt Warman MP
Parliamentary Under Secretary of State for Digital and Broadband
