

Local Full Fibre Networks Programme, Gigabit Broadband Voucher Scheme

The aim of the Scheme is to increase the speed of deployment of full fibre networks within the UK by providing micro-grants to support the cost of new connectivity to gigabit capable broadband services to businesses and communities. The voucher is a grant to available to all small and medium enterprises (SMEs) and in some circumstances residents.

SME vouchers have a value between £500 and £2,500 where vouchers are available to domestic users these have a value of £500.

Following a successful market test in late 2017, the Scheme began to operate across the whole of the UK from March 18. Funding of £67m is currently allocated to the Scheme.

On a quarterly basis, DCMS will make information available about the number of new connections the Scheme has supported on a constituency, national, regional and local authority basis. The following information provides these data from the start of the Scheme until June 2018.
