My suggestions for reform would be as follows:

1) Abolish the House of Lords
2) Reduce the size of the House of Commons to 2/3 of its current number
3) Introduce proper Regional Government
4) Form a peer or oversight body drawn from the regions (via Regional Government)
5) Form a body to look solely at outward facing strategic issues affecting all countries within the UK.
6) Limit the powers of Prime Minister, particularly those concerning war & armed conflict.
7) Devolve tax raising powers to the various all countries within the UK & abolish the Barnett formula.
