Written evidence submitted by Ian Bardrick (ECG0006)

Sent in a personal capacity.

**Concern about vaping by others causing me severe discomfort:**

a. The emissions visible or invisible from a person vaping in a confined space, e.g. tube train carriage, a room in a house, a café cause an allergic reaction from the skin on my face that is sufficiently painful for me to have to leave that space.

b. Even passing close to a person vaping outdoors, e.g. in the street, causes a slight reaction.

**Background**

c. I have suffered from eczema since birth

d. I have bee unable to use perfumed after-shave or cologne since I was about 40 years old because they cause a painful allergic reaction from the skin on my face.

e. Prior to that I had only suffered once from such a reaction when I was 19 years old.
