I live in Northern Ireland and am very concerned about the attempts by Westminster to try and undermine our pro-life laws. I want the existing law to be preserved.

When the Abortion Act in England was introduced in 1967 it was not envisioned that it would be used for social reasons resulting in almost nine million abortions since then.

Abortion fundamentally undermines human rights especially the right to life of the unborn child in the womb. – It involves the crushing of the skull and pulling of limb from limb to remove the foetus.

That to my mind is murder by another name. It is totally unacceptable.

The sixth commandment states – “Thou shalt not kill”

Life is very precious, especially the life of a disabled child.
