Written submission from a member of the public (ANI0044)

I am a Northern Ireland citizen and I would like to express my support for Northern Ireland’s current law on abortion.

1. I ask that Westminster supports the decisions made by our MLAs in 2016 when they backed the sanctity of life in our province and recognizes the jurisdiction of the Court of Appeal in Belfast which upheld Northern Ireland’s right to determine its own abortion legislation.

2. An unborn child is the most vulnerable in our society and their right to life needs to be preserved – abortion undermines their basic human right – to live!

3. I have recently been personally affected by the experiences of two friends who have suffered miscarriages. Both declared their increased support for Northern Ireland’s pro-life legislation having experienced the horrific process involved when a baby has died naturally.

4. As a society we would never support the killing of young children, please understand that abortion is the killing of a young child that has not been born yet and we should not tolerate this either.
