Written submission from Mr William Baird (ANI0095)

I am a resident of Northern Ireland and I believe that the laws in Northern Ireland must be respected. Westminster should not supersede the will of or elected representatives, which was made clear in February 2016. It would appear from statistics that the majority of abortions in GB are carried out for social reasons with recent stats showing that in 2016 98% of abortions in Great Britain were for social reasons. This goes against my Christian Faith.
