I write in support of the above and make the following points:

1. An estimated 100,000 lives have been saved due to the existing law.
2. Abortion is the modern-day equivalent to the “holocaust” carried out under the Nazi Regime in the 1930’s and 1940’s.
3. Abortion has become a means of social convenience where in G.B. in 2016 98% of abortions were for social reasons.
4. Killing those who cannot defend themselves is still killing.
