I live in Northern Ireland and am very concerned that the government will try to force new laws into Northern Ireland that will allow little babies to be killed in their mummy’s tummies. In Feb 2016 the people of this land made it clear that we don’t want this form of murder instituted, especially as in 2016, 98% of abortions were for lifestyle choices. Please leave our laws alone and please uphold the rights of all human beings in Northern Ireland.
