I am a Pastor living and working in N. Ireland. In the course of my work, I have counselled two ladies who had abortions while teenagers. Even though 20+ years had passed, their actions continued to haunt them. I ask that our abortion laws do not be changed.

Many of the abortions performed in England, Scotland and Wales are for Social reasons, not medical. Had these babies not been aborted, they could have been adopted by the many loving couples who cannot have children of their own.

Abortion is the taking of life, and the Bible condemns such action, and commands us in

- **Exodus 20:13** Thou shalt not kill.

Please do not change N. Ireland’s abortion laws.
