Written submission from Heather Beggs (ANI0231)

I would like to show my support for the pro-life laws in Northern Ireland. As a Christian and someone who lives in Northern Ireland, I am very concerned that the rights of unborn babies are ignored and so many are concerned only for the rights of women.

I believe it is absolutely vital that our laws, here in Northern Ireland, should be respected and upheld. In fact 98% of abortions in Great Britain were carried out for social reasons in 2016, which is extremely alarming. Please can we make sure our existing law is preserved so that our unborn children are protected?
