We wish to urge you not to allow abortion to be imposed on Northern Ireland against the will of the people and to the detriment of all concerned. The devolved Assembly has rejected this wickedness on a number of occasions, most recently in February 2016.

Abortion is not the compassionate healthcare solution it is so often misleadingly made out to be. In 2016, 98% of abortions in Great Britain were carried out for social reasons, demonstrating chillingly that many are prepared to murder their unborn children purely for their own personal convenience. The prospect of this happening in our corner of the land is horrifying.

Please protect future generations and prevent further unnecessary loss of life by maintaining the existing good abortion law in Northern Ireland.
