The relentless attack on Northern Ireland’s Pro-life laws by members of your parliament and even “celebrities” is unacceptable and must stop.

Why do you feel it is within your jurisdiction to launch an enquiry into OUR DEVOLVED laws? This is yet another concerted effort by English politicians to undermine democracy, undermine devolution, undermine the scientific basis of what constitutes personhood and undermine the wishes of the Northern Irish Electorate. We have the lowest maternal mortality rate in the UK. The U.N., indeed most of the world have conveniently forgotten that there is not a single human rights treaty or convention which acknowledges a supposed “right to abortion” yet the universal declaration of Human rights recognises the inherent dignity and protection of all human beings. The United Nations own convention on the human rights of the child states:

“The child, by reason of his physical and mental immaturity needs special safeguards and care, including appropriate legal protection, before as well as after birth”.

Finally, abortion not only ends the life of an unborn child but hurts women both physically and mentally. Many many statistics prove this.

The vast majority of people in Northern Ireland are tired of your interference and we WILL resist your continued bullying.
