1) DEVOLUTION
Northern Ireland has its own devolved parliament. even if this is suspended this parliament should be respected and this issue should be decided by them in due course.
no one on the W and E Committee represents any one in Northern Ireland. it would be wrong to make decisions without any representation.

2) DISTINCTIVE LAW AND CULTURE
abortion discriminates against disability in the womb.
many are alive today because the law protected them against being aborted

3) HUMAN RIGHTS & EQUALITY

4) PERSONAL STORIES
A [14-18] year old girl told me "I have long since forgiven my [relative] for raping me, I have never forgiven myself for having the abortion.
a [21-29] year old came to the surgery a day or two after her termination at a [location] Clinic (name available). she brought in the discharge note.
How do you feel about it. I asked.
"I am ok with it" She said.
I opened the letter
"there were no products of conception " it said. "She was not pregnant".
I told the lady the contents of the letter. she burst into tears. she was over whelmed and ran around the room shouting " I didn't have an abortion.
