1) DEVOLUTION
Both lives matter
Every baby should have the right to live. No miracle should be taken from a mother. The consequences following abortion will be horrific! How will they be dealt with these if this is passed. A suffering mother grieving for her aborted child.
The pain, sadness and heavy burden felt by women who have been through a traumatic experience of abortion.
Please spare this more thought. Think of the unborn child.
I fell pregnant (not planned). When I found out I thought this was the end of the world. How could I look after a child? 2 years on, my son is my world. My little miracle. I understand how women may feel when they find out they are expecting unplanned. Please give them the chance to experience this life changing miracle in their lives
