1) DEVOLUTION
This is an issue that should be decided by our own politicians here in Northern Ireland as they are our representatives, to be over ruled by Westminster would not be helpful.

2) DISTINCTIVE LAW AND CULTURE
It is important that babies are not aborted in case they are disabled eg Down’s syndrome, they have a right to life too. These people are important in our society.

3) HUMAN RIGHTS & EQUALITY
Both the life of the baby and mother are equally important, and abortion should only be granted when the mothers life is at risk.
