1) DEVOLUTION
The majority of us in Northern Ireland are against abortion. We believe in the value of both lives. Respect our rights to our view!

2) DISTINCTIVE LAW AND CULTURE
Our respect for life is something to be celebrated, not regarded as outmoded! Hitler also wanted to get rid of all those who had a disability. Do you really want to be compared with him?

3) HUMAN RIGHTS & EQUALITY
Pro-Life supporters also have rights. The pro-abortion lobby supports the rights of those who agree with them, but rides roughshod over the rights of those who disagree!

4) PERSONAL STORIES
I've heard of several people who decided NOT to have an abortion and were SO glad later that they made that choice. On the other hand, a previous next-door neighbour of ours had an abortion, and suffered for it for years.
