1) DEVOLUTION
Northern Ireland issues should be sorted by our politicians or Westminster. I call for Stormont to be back up and running to deal with such a sensitive issue like abortion. I don’t want abortion to be legal in NI.

2) DISTINCTIVE LAW AND CULTURE
I do not think a disabled child should be aborted or any child for that matter. Rather than making it legal I think there should be better education and research on this. Abortion is not just about a woman it’s about a baby too. Abortion kills innocent lives and I don’t want that in NI. There are world changers waiting to be born.

3) HUMAN RIGHTS & EQUALITY
I value the life, health and dignity of both child and woman. Abortion shouldn’t be here. It breaks my heart that it’s even an option for discussion. We all started off as a fetus and were born. So really what’s the difference. A fetus is still a human. I understand the difficulties when it comes to life limiting conditions and sexual crime but the fetus is still a human not an inconvenience.

4) PERSONAL STORIES
