Written submission from James Johnston (AN10533)

1) DEVOLUTION
It is important that people outside of Northern Ireland don’t deign to decide what we in Northern Ireland want.

2) DISTINCTIVE LAW AND CULTURE

3) HUMAN RIGHTS & EQUALITY
The life cycle of a human does not start at birth, it extends right back to conception. Therefore "human rights" should extend to the same. It would be convenient if this was not the case, but it is, so we have to take the difficult, but absolutely necessary and responsible stance that the murder of these humans is unacceptable.

4) PERSONAL STORIES
