1) DEVOLUTION
Such sensitive issues should be left to the people of Northern to decide

2) DISTINCTIVE LAW AND CULTURE
Life begins at conception and as such we do not have the right to discriminate against a child whether diagnosed with a disability or not

3) HUMAN RIGHTS & EQUALITY
On the basis of sexual crime and life limiting conditions the government are prepared to offer abortions in all cases....surely this gives the green light to all to recklessly create life as it can be easily dealt with. Laws should be made to protect all lives not just those deemed to count by a government
