Written submission from Carole Bell (ANI0545)

1) DEVOLUTION
Abortion is a devolved issue in Northern Ireland. It is not for politicians in Westminster to decide about abortion here. 64% of people in Northern Ireland think that abortion should be decided by Northern Ireland representatives!

2) DISTINCTIVE LAW AND CULTURE
Both Lives Matter carried out a survey and discovered that 100000 lives were saved by keeping our laws. 90% of Down’s syndrome babies in England Scotland and Wales are aborted but in Northern Ireland 90% are born!

3) HUMAN RIGHTS & EQUALITY

4) PERSONAL STORIES
It is not a woman’s right to have an abortion. There are two lives to consider. Both Lives Matter. Doctors and health professionals need more training. Better health care and counselling is what is needed!
