Written submission from David Wright (ANI0562)

1) DEVOLUTION
Any changes to the laws re abortion in NI should be decided only by the people of NI and their elected representatives.

2) DISTINCTIVE LAW AND CULTURE
I am proud of the fact that NI is the safest place in the UK for a pre-born child and that we afford them the human rights to which they are entitled.

3) HUMAN RIGHTS & EQUALITY
Abortion rates have been shown to be higher among people from areas of socio-economic need. A female baby is also more likely to be aborted than a male baby. Abortion drives inequality and the ability of a woman to end the life of her own child does not further the cause of individual or collective freedom or equality.

4) PERSONAL STORIES
