1) DEVOLUTION
I feel it's wrong for those outside of Northern Ireland to try to push their own agendas on the laws governing this country when our own representatives and the majority of residents here feel that the abortion law should stand as it is.

2) DISTINCTIVE LAW AND CULTURE
Surely aborting babies because they may have a disability isn't a far cry from aborting babies because they are the wrong sex and we in the West condemn other countries for this regime in their countries.

3) HUMAN RIGHTS & EQUALITY
Celebrities dictating what we should think and do....how very dare they! Amnesty International should be ashamed of themselves...what a complete joke!

4) PERSONAL STORIES
