1) DEVOLUTION
I believe this issue must be decided by elected politicians in Northern Ireland

2) DISTINCTIVE LAW AND CULTURE
All unborn children should and must be protected in law

3) HUMAN RIGHTS & EQUALITY
We must be a voice for the unborn child

4) PERSONAL STORIES
I am a gynae nurse and iv delivered many babies up to 20 weeks gestation who for many reasons die in the womb n the mother in this case has to have a D & C or be induced, or the mother miscarriages. These babies-i don’t call them foetus’s-are perfectly formed from conception and just need time to grow in their mother’s womb. If people could see these tiny babies i believe they would think twice about abortion n supporting abortion rights. Life is God given n only God can take away life. This is my firm belief. At work we all treat these tiny babies with respect and love. No child asks to be born. Please don’t support that takes away their right to live. BOTH LIVES MATTER!!!!
