1) DEVOLUTION
The media is constantly telling us that NI and Scottish MP's shouldn't be allowed to vote at Westminster on matters that apply only to England and Wales so surely they shouldn't involve themselves in matters that have already been devolved.

2) DISTINCTIVE LAW AND CULTURE
The rest of the UK should be ashamed with it's attitude towards the unborn child due to a possible/confirmed disability. Abortion on demand leads to being selective in the sex of the unborn child.

3) HUMAN RIGHTS & EQUALITY
Abortion on demand gives no rights to the child. We are stepping backwards to a time when unwanted children were quite literally thrown out and left to die!
