1) DEVOLUTION
This is a law that should be changed by the people of NI. Not forced on us by Westminster

2) DISTINCTIVE LAW AND CULTURE
We have a different culture in NI and we look after people of abilities and treasure them as much as the next person

3) HUMAN RIGHTS & EQUALITY
In the case of rape, then that’s down to the woman’s conscience, if it’s a health issue again it should be up to the woman, if it’s an abnormality then it needs to be the parents and the health professionals to help guide the decision

4) PERSONAL STORIES
