1) DEVOLUTION
Abortion is a devolved matter.
Research shows that a large majority of people in NI, especially women and young people, believe that it should be decided by NI elected representatives.

2) DISTINCTIVE LAW AND CULTURE
NI abortion law has saved many lives, including the vulnerable, disabled, etc.

3) HUMAN RIGHTS & EQUALITY
There is no innate right to abortion.
The woman and her unborn child have equal human rights to life.
Women may be pressurised into abortion when they would like instead to receive counselling and support to keep their child.
