1) DEVOLUTION
I believe it would be wrong to have the Women and equalities committee a body outside NI make decisions on our behalf regarding abortion. They have no idea of our culture which is very different to the mainland.

2) DISTINCTIVE LAW AND CULTURE
Life must have more meaning then just to decide to get rid because it is imperfect. If that was the case none of us should be here, we all have issues of sorts some just can't be seen physically.

3) HUMAN RIGHTS & EQUALITY
To give us rights as women to be able to make our own decisions on whether to take a life of a child is a bit scary to be honest. As a woman myself that is a big responsibility to give us. Our emotions can be all over the place at times & it is not a good filter to make life changing decisions on.
