1) DEVOLUTION
After reading that you are holding a consultation, on the subject of abortion in Northern Ireland. I was very concerned, when I became aware that no one on your committee represents a seat in Northern Ireland.
As someone who has lived their whole life in Northern Ireland, I feel very strongly, that a matter such as this should be decided by politicians elected here.
I realise that the Northern Ireland Assembly at this time is temporarily suspended. Even so, I feel that it would be constitutionally inappropriate for someone not elected by the people of N.I. to interfere in regard to such a sensitive subject.

2) DISTINCTIVE LAW AND CULTURE
In 2017 ‘Both Lives Matter’ carried our research that showed the law in Northern Ireland as it stands, saved around 100,000 lives. Had our law been the same as England, Scotland or Wales these babies would never have been born. How can we talk about protecting the rights of adults and not protect the rights of the unborn baby in the womb.

3) HUMAN RIGHTS & EQUALITY
Surely as women, our whole instinct is to protect the unborn baby we carry. I feel strongly that our laws should supports us and our unborn babies.

4) PERSONAL STORIES
