1) DEVOLOUTION
Do you know that 64% of people in Northern Ireland think abortion should be decided by Northern Ireland’s elected representatives?

2) DISTINCTIVE LAW AND CULTURE
It upsets me greatly that you are trying to move away from a model where in 2016, 90% of children identified in utero in Northern Ireland with Down’s Syndrome were born. To a model where around 90% of those identified in utero to have Down’s Syndrome in England, Scotland and Wales were aborted. Words honestly escape me.

3) HUMAN RIGHTS & EQUALITY
The Women’s and Equalities Committee is heading to a world where women can only be equal when they have an absolute right to abortion in any circumstance for any reason. So basically women vs their unborn child in the crudest sense. This is not a measure of freedom, equality and progress...rather a dangerous and destructive way to view women and humanity more widely. Life, health and the dignity of both woman and child, should be upheld as far as possible.
