Written submission from Karis Fitch (ANI0671)

1) DEVOLUTION
I believe that decisions about our country should be made by people who represent us and understand us. Please give us this right.

2) DISTINCTIVE LAW AND CULTURE
I believe that those who are disabled should be protected, that those who are vulnerable and who cannot speak out for themselves should have the right to life, just as we have had the right to life.

3) HUMAN RIGHTS & EQUALITY
I disagree that women should be put against their unborn child. They will feel the pressure to have an abortion. They should be supported through their difficult times.

4) PERSONAL STORIES
