Parliamentary Question 285886

Question

To ask the Secretary of State for Justice, how many prisons operated a policy of five per cent. random mandatory drug testing in each financial year from 2002-03 to 2008-09; how many (a) random and (b) non-random tests were performed in such prisons in each such year; how many such tests were positive for (i) cannabis, (ii) opiates (excluding methadone), (iii) non-prescribed methadone and (iv) prescribed methadone.

Answer

Random mandatory drug testing takes place in all prisons. Prisons with a population of 400 or more are required to test a minimum of 5% of their population each month; smaller prisons are required to test a minimum of 10% of their population, however up to 15% can be tested under the random programme.

The data requested is given in the table below.

Year	Number of prisons operating a policy of 5% random testing	Mandatory Drug Testing In Prisons that operated a policy of 5% random testing									
		Random test results					Non-random (targeted) test results				
		No. of tests	No. +ve for cannabis	No. +ve for opiates	No. +ve for illicit methadone	No. +ve for prescribed methadone	No. of tests	No. +ve for cannabis	No. +ve for opiates	No. +ve for illicit methadone	No. +ve for prescribed methadone

Some samples will test positive for more than one drug. Accordingly the sum of the number of positive samples for each drug is greater than the total number of positive samples.

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system. The data are not subject to audit.

Parliamentary Question 285887
