Dear Keith

As you are aware, Lin Homer has undertaken to write to you as Chair of the Home Affairs Committee on a regular basis to update the Committee on the UK Border Agency's progress with deporting foreign national criminals and our conclusion of the caseload of historic asylum cases.

However, whilst we have committed to keeping the House suitably updated, it has come to my attention that Ministers have made no official commitment to deposit future copies of these letters in the House library. I am therefore writing to you to confirm my agreement that all future updates will be placed in the House library as a matter of course.

Yours Ever
Phil
