

NHS Protect

Tables showing the number of reported physical assaults on NHS staff in 2010-11, broken down by NHS Trust/PCT National Summary by Sector Type

Sources

- (1) NHS Protect Physical Assault Statistics 2010/11
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) DH Workforce Statistics 2010 (Published by the NHS Information Centre 30th September 2010)
- (5) Assaults per 1,000 staff (calculation based on DH Workforce figure)
- (6) Health body declaration of total staff (as at 31st March 2011)
- (7) Assaults per 1,000 staff (calculation based on health body declared figure)
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2010 to 31st March 2011

Notes

Physical assault statistics (source 1) are validated by the NHS Protect. All other data sets are the responsibility of the NHS Information Centre (source 4) or the individual health body (sources 6 and 8). DH staff figures were published by the NHS Information Centre on 30th September 2010 and health body figures were provided at 31st March 2011. Both have been listed as there is some variance.

Source 2 is the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. This figure has been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at source 1.

IMPORTANT - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

Many health bodies have undergone reconfiguration during 2010/11 in line with DH Transforming Community Services guidelines. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2010. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of this page*

NHS Protect

Tables showing the number of reported physical assaults on NHS staff in 2010-11, broken down by NHS Trust/PCT

Acute Sector

Sources

- (1) NHS Protect Physical Assault Statistics 2010/11
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) DH Workforce Statistics 2010 (Published by the NHS Information Centre 30th September 2010)
- (5) Assaults per 1,000 staff (calculation based on DH Workforce figure)
- (6) Health body declaration of total staff (as at 31st March 2011)
- (7) Assaults per 1,000 staff (calculation based on health body declared figure)
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2010 to 31st March 2011

Notes

"-" indicates figure not declared or 'not known' by the health body.

Physical assault statistics (source 1) are validated by the NHS Protect. All other data sets are the responsibility of the NHS Information Centre (source 4) or the individual health body (sources 6 and 8). DH staff figures were published by the NHS Information Centre on 30th September 2010 and health body figures were provided at 31st March 2011. Both have been listed as there is some variance.

Source 2 is the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. This figure has been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at source 1.

IMPORTANT - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

Many health bodies have undergone reconfiguration during 2010/11 in line with DH Transforming Community Services guidelines. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2010. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of the first page of this document*

NHS Protect

Tables showing the number of reported physical assaults on NHS staff in 2010-11, broken down by NHS Trust/PCT Ambulance Sector

Sources

- (1) NHS Protect Physical Assault Statistics 2010/11
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) DH Workforce Statistics 2010 (Published by the NHS Information Centre 30th September 2010)
- (5) Assaults per 1,000 staff (calculation based on DH Workforce figure)
- (6) Health body declaration of total staff (as at 31st March 2011)
- (7) Assaults per 1,000 staff (calculation based on health body declared figure)
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2010 to 31st March 2011

Notes

"-" indicates figure not declared or 'not known' by the health body.

Physical assault statistics (source 1) are validated by the NHS Protect. All other data sets are the responsibility of the NHS Information Centre (source 4) or the individual health body (sources 6 and 8). DH staff figures were published by the NHS Information Centre on 30th September 2010 and health body figures were provided at 31st March 2011. Both have been listed as there is some variance.

Source 2 is the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. This figure has been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at source 1.

IMPORTANT - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

Notes

"-" indicates figure not declared or 'not known' by the health body.

Physical assault statistics (source 1) are validated by the NHS Protect. All other data sets are the responsibility of the NHS Information Centre (source 4) or the individual health body (sources 6 and 8). DH staff figures were published by the NHS Information Centre on 30th September 2010 and health body figures were provided at 31st March 2011. Both have been listed as there is some variance.

Source 2 is the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. This figure has been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at source 1.

IMPORTANT - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

Health bodies have been categorised under the Mental Health sector where mental health and/or learning disability services constitute a significant proportion of their overall service provision.

Many health bodies have undergone reconfiguration during 2010/11 in line with DH Transforming Community Services guidelines. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2010. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of the first page of this document*

NHS Protect

Tables showing the number of reported physical assaults on NHS staff in 2010-11, broken down by NHS Trust/PCT PCT Sector

Sources

- (1) NHS Protect Physical Assault Statistics 2010/11
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) DH Workforce Statistics 2010 (Published by the NHS Information Centre 30th September 2010)
- (5) Assaults per 1,000 staff (calculation based on DH Workforce figure)
- (6) Health body declaration of total staff (as at 31st March 2011)
- (7) Assaults per 1,000 staff (calculation based on health body declared figure)
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2010 to 31st March 2011

Notes

"-" indicates figure not declared or 'not known' by the health body.

Physical assault statistics (source 1) are validated by the NHS Protect. All other data sets are the responsibility of the NHS Information Centre (source 4) or the individual health body (sources 6 and 8). DH staff figures were published by the NHS Information Centre on 30th September 2010 and health body figures were provided at 31st March 2011. Both have been listed as there is some variance.

Source 2 is the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. This figure has been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at source 1.

IMPORTANT - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

In some instances, provision of community hospitals, elderly care or learning disability services in the PCT sector may contribute towards high assault figures.

Many health bodies have undergone reconfiguration during 2010/11 in line with DH Transforming Community Services guidelines. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2010. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of the first page of this document*
