COMPETITION AND MARKETS AUTHORITY

The CMA's goal is to promote competition for the benefit of consumers, both within and outside the UK and to make markets work well for consumers, businesses and the economy. This is achieved by enforcing competition law; investigating mergers; conducting market studies and investigations where there may be competition and consumer issues; investigating breaches of UK prohibitions against anti-competitive agreements and abuses of dominant positions; bringing criminal proceedings against individuals who commit cartel offences under the Enterprise Act 2002 (EA02). It also entails enforcing consumer protection legislation to tackle practices and market conditions that make it difficult for consumers to exercise choice; co-operating with sector regulators and encouraging regulators to use their competition powers; consideration of regulatory references and appeals and carrying out other competition roles.
