6th May 2022

Dear Lord Rogan

QUESTION FOR WRITTEN ANSWER HL8011

On 27th April 2022 you asked the Department for Business, Energy and Industrial Strategy the following Question for Written Answer:

To ask Her Majesty's Government when they intend to publish further details of how the £39.8 billion research and development budget for the financial years 2022–23 through to 2024–25 will be allocated; and when the first tranche of grant funding will be made available to bidders. (HL8011)

Please find my response below:

We published a breakdown of BEIS research and development (R&D) budget by Partner Organisation for the financial years 2022/2023 to 2024/2025 on March 14. Further details have subsequently been published – including £685m across the SR for the Aerospace Technology Institute which reopened for funding applications on 4th April.

Further details of UK Research and Innovation's (UKRI) allocation will be published in the next few weeks. This will include a breakdown by UKRI council. Timing of grant funding will vary by Partner Organisation but will begin as soon as possible.

I will be placing a copy of this letter in the Libraries of the House.

Lord Callanan
