

UK Government

Do you have an eVisa and plan to **travel aboard?**

You must update your UK Visas and Immigration account with your current passport details before you travel.

If you use an eVisa (digital immigration status) to prove your rights in the UK, then you must tell the Home Office about any passport you intend to use for travel if it is not already linked to your UKVI account.

If you have a biometric residence permit or card (BRP/BRC) you should continue to carry it with you when you travel.

Search **'update my details'** on GOV.UK
